

Auto Levels are used by Builders and contractors to measure, transfer, and set out Horizontal lines on a construction site.

Auto Level (AL32 and AL24)

Specifications	Technical Data
Standard deviation of 1km double run	±2.0mm
Magnification	32x (AL32) 24x (AL24)
Field Of view	1°20'
Shortest focusing distance	0.3m
Maximum focusing distance	240m
Objective aperture	38 mm
compensator	Air damping
Graduation of circle	1
Horizontal Circle	360°
Weight	3kg

G2 Engineers Auto Level

Specifications	Technical Data
Standard deviation of 1km double run	±1.0mm
Magnification	32 x
Field Of view	1°20'
Shortest focusing distance	0.3m
Working range	±15'
Setting accuracy	±0.3"
Setting time	≤2s
Sensitivity of circular level	10' per 2mm
Horizontal Circle	360° or 400G
Net weight	3.7kg
