

Brickforce Scanner

The BrickForce Scanner permits targeted scanning for metals such as reinforcing iron, heating pipes and water pipes.

- This scanner has One-Button operation to switch between the different measuring modes.
- The Operation Guide via the LCD display makes the device easy and reliable to use.
- Auto-Calibration: adjusts the device to different surfaces immediately after switching on.
- Auto-Cal Plus allows easy narrowing down of test objects in Metal-Scan mode.
- Audible and visual signals for locating objects.
- Due to the permanent voltage warning high security is guaranteed.
- The position of live cables and wires can be precisely determined.

Wall Scanner

One-button operation for changing between the different measuring modes

- With the help of the user guide on the LCD screen the device can be used easily, reliably and safely.
- Auto-Calibration lets the device adapt itself automatically to the different surfaces immediately after switching it on.
- Auto-Cal Plus: allows objects to be localized easily in Metal-Scan mode.
- The MultiFinder Plus gives audible and visual signals for finding objects.
- The permanent voltage warning guarantees high security.
- Feature: In Metal-Scan mode even wires that carry no current are detected.
- Illuminated display
- A variety of integrated sensors make the MultiFinder Plus a universal scanning and detection tool.
